

Powerscan PM9500 Service Codes

Standard Radio Mode

Put the scanner into the base directly after reading this command, this will switch also the bases station back to normal mode.

Factory Configuration

Did not change Radio Mode! Please scan "*Standard Radio Mode*" before.

Compatible Radio Mode

Please set now the 4digit address, scan the bind barcode and put the scanner into the base, to change the base to compatible mode. For more details see other FAQs.

Show Firmware Gun

TO SEE THE SW RELEASE FROM THE BASE, YOU HAVE TO INSTALL OUR CONFIGURATION SUITE [ALADDIN](#). THEN CONNECT THE BASE USING USB-COM OR RS232.

Turn OFF PM9500

UNLINK from BASE
